

**BELIEVE** all yo' fren's fish stories. It makes 'em like you better an' you don't have to buy the fish.

*Velvet Joe*

## REPUBLICANS NAMING.

(Continued from page 1.)

words of his speech. Then the din broke loose. The Vermont delegates broke the real cheer leaders. They stood on their chairs and whooped it up strong. Oregon's representatives—the only delegates instructed for the justice by a primary vote—were hardly second in their enthusiasm.

*What does he get?*

**WHEN** your husband props his newspaper up against the sugar bowl at breakfast and raises his coffee cup to drink—

What does he get?

Just coffee? Or fine coffee—with that smooth, rich, satisfying flavor? Between "just coffee" and Schilling's Best there's a vast difference!

This difference is not only in flavor and pleasure, but also in the number of cups in a pound. Schilling's Best goes further. To prove this, follow the directions in the vacuum-sealed, air-tight tins.

Sold only through grocers.

**Schilling's Best**

## Waste Paper Baskets

We have them in nicked or brown wire, lacquered steel and in Japanese woven bamboo. Also white enamel-ed towel baskets for the bath room.

**Demaray's** Drug and Stationery Store

**Burton Comes Next**  
Arkansas, next on the list, yielded to Governor Willis of Ohio, to nominate former Senator Burton. He got a good hand.

The governor has about the loudest voice in captivity, and he had his audience with him from the start. His powerful tones reverberated back and forth in the hall of voluminous echoes.

Willis concluded at 1:45 and the Buckeye state's delegates swept the floor with applause. On the platform Willis held an impromptu reception.

West Virginia delegates helped swell the Burton cry, but the band drowned all of the noise out with the exception of the reiterated yell, "We want Burton."

Ohio had the demonstration largely to itself, with the exception of some of those in the galleries.

### Favorite Sons Presented

The roll call proceeded to Connecticut, which state yielded to Senator Lodge of Massachusetts to name Weeks.

The Weeks demonstration started at 2:30 and lasted two minutes. During his speech nominating DuPont, Congressman Miller mentioned the "smell of powder," but the smell in the convention hall was rapidly becoming that of a giant lunch room.

Idaho passed on the roll call and when Illinois was reached the crowds began a cheer for the favorite son, Senator Sherman. Colonel W. J. Calhoun was spokesman and sponsor for the Illinoisan.

Calhoun concluded at 2:56 and it was Illinois' turn to do the shouting. The cheering for Sherman lasted 24 minutes.

Delegate Wood of Indiana then placed Fairbanks' name in nomination.

Woods violated all rules by mentioning Fairbanks' name before his last sentence.

Woods concluded at 3:42 and the band aided the hoosiers by playing "On the Banks of the Wabash." Kentucky joined the hoosiers.

### FACTS CONCERNING WATER SERVICE OF GRANTS PASS

In 1911 the water company installed a plant for water sterilization by the hypochlorite of lime treatment. They also fitted out a bacteriological laboratory and tests are made by a skillful operator to ascertain accurately the condition of the water. Tests are made daily for periods of fifteen to thirty days. One hundred and thirty-eight tests were made in 1915, 241 in 1914, etc. These tests show the water to be remarkably free from injurious bacteria. Since 1911 no case of typhoid fever has been traceable to the city water.

Hypochlorite of lime has of late been giving way to the more efficient method of water sterilization by means of 100 per cent liquid chlorine, and as in 1911 the Rogue River Water company was in the advance guard in adopting the hypochlorite method of sterilization, so now they are again among the first to install the 100 per cent liquid chlorine treatment. Several weeks ago the water company installed a new chlorinator and has been sterilizing the entire pumpage by this method ever since. Results are very satisfactory.

Pump station is located on the north bank of Rogue river, one half mile up stream or east from Sixth street, above all drainage from the city.

Water is pumped direct to reservoirs before being distributed through the mains.

There are two reservoirs.

Elevation of reservoirs above Sixth street at railroad crossing 200 feet.

Reservoirs are emptied and thoroughly cleaned every two months.

Fire hydrants are flushed every month. Dead ends are flushed twice every month.

Pressure of water at water office 70 pounds per square inch. Pressure at highest service 40 pounds per square inch.

All interested in the water supply, either from a sanitary or mechanical standpoint, are invited to inspect our plant. Call at the office, 204 North Sixth street, for permit and further information.

### One Woman's Way.

A West Philadelphia woman is still smarting over the "compliment" that a guest paid her when she was hostess at an entertainment a week ago. The West Philadelphia woman, whose name is not Brown, prides herself especially on her coffee, and she made some of her best for this occasion.

Among the guests was a woman who makes it a practice always to compliment persons with whom she comes in contact. She says it makes others feel pleasant and doesn't hurt her. During the refreshments this guest turned to the woman whose name is not Brown and said:

"Your tea is so delicious! May I have another cup?"—Philadelphia Ledger.
